Index to the

Aeronautical Engineering Review, Volume 13

January–December, 1954

	Month	Page
Aerodynamics—		
Application of Sailplane Performance Analysis to Airplanes, August Raspet	*Aug.*	56
Design of an Airfoil Oscillator, Robert Maurice Williams	*Oct.*	80
Flight Measurements of Trailing-Edge Suction on a Sailplane, August Raspet and Glenn D. Bryant	*Jan.*	26
Flight Observations of Suction-Stabilized Boundary Layers, B. H. Carmichael	*Feb.*	36
Laminarization Through Boundary-Layer Control, G. V. Lachmann	*Aug.*	37
Air Transport—		
Design of the Transport Helicopter, David E. Postle	*Mar.*	70
Economic Considerations of the Transport Helicopter, James B. Edwards	*Apr.*	76
Evolution of the Boeing Jet Tanker-Transport Design, Maynard L. Pennell	*Aug.*	32
Human Factors in Jet-Transport Design, Frank C. Hale	*Oct.*	84
Operational Economics of Scheduled Helicopter Transportation, Robert L. Cummings, Jr.	*June*	66
Turboprop Engines for Tomorrow's Transport, E. F. Heaton, C. S. Constantino, and W. H. Ziegler	*Mar.*	52
Aviation Medicine—		
Designing the Cockpit for High-Speed Flight, S. N. Roscoe	*Dec.*	47
Human Factors in Jet-Transport Design, Frank C. Hale	*Oct.*	84
Man and Machine Between Atmosphere and Space, Heinz Haber	*Nov.*	56
BAILEY, ROBERT A. Application of Operations-Research Techniques to Air-Borne Weapon System Planning	*Oct.*	72
BAKER, F. A., AND F. G. TIMMEL. Magamps Applied to Aircraft Control Problems	*Nov.*	46
BLANTON, H. ELMORE. Use of Flight Simulators in the Design of Aircraft Control Systems	*Feb.*	29
BONNEY, FRED S. The Operational Application of Automatic Pilots	*July*	47
BOSTON, JOHN P., JEROME M. SCHWARZBACH, AND JOSEPH E. JENKINS. A Method of Locating the Airplane Take-Off Point and Determining the Take-Off Speed	*July*	42
BREWER, GIVEN. Calibrating the PBY-6A Airplane for Meteorological Purposes	*Feb.*	24
BROWN, L. D. Integrated Electric Control for the General Electric J47-17 Jet Engine	*May*	59
BRYANT, GLENN D., AND AUGUST RASPET. Flight Measurements of Trailing-Edge Suction on a Sailplane	*Jan.*	26
CARMICHAEL, B. H. Flight Observations of Suction-Stabilized Boundary Layers	*Feb.*	36
CARMODY, EDMUND O. The Role to Be Played by Training Devices in the Training of Aviation Personnel	*May*	74
CHRISTENSON, CARL M. Management's Economic Interest in Safety	*Aug.*	52
CHRISTOFFERSON, F. E. The Flight-Test Organization	*June*	62
CONSTANTINO, C. S., E. F. HEATON, AND W. H. ZIEGLER, Turboprop Engines for Tomorrow's Transport	*Mar.*	62
CORNWALL, E. W. Thermal Considerations in Electrical Accessory Design	*Dec.*	59
CUMMINGS, ROBERT L., JR. Operational Economics of Scheduled Helicopter Transportation	*June*	66
DAWSON, L. G. The Best Use of the Energy from a Turbine Engine for Aircraft Propulsion	*June*	48
Design—		
An Air-Powered Servo-Actuator, Ralph Kress	*Jan.*	52
Airplane Design in Relation to Safety, R. W. Rummel	*Apr.*	70
Designing the Cockpit for High-Speed Flight, S. N. Roscoe	*Dec.*	47
General Design Aspects of Flight Refueling, Walter P. Maiersperger	*Mar.*	52
Optimization of Airplane and Engine Performance, E. F. Pierce	*June*	52
Optimization of Power-Plant and Airplane Performance—A Symposium	*June*	42
Porous Metals in Aircraft, David B. Pall	*July*	36
Practical Considerations in the Optimization of Airplane and Engine Performance, E. H. Heinemann	*June*	44
The Self-Contained Airplane, Donald R. Elliott	*Sept.*	83
Suggested Supersonic Design Considerations, R. J. Woods	*June*	46
The Use of Closed-Curve Equations of Variable Degree in Airplane Fuselage Lofting, Jackson W. Granholm	*July*	52
The Use of an Operational Flight Trainer as a Research Tool for Aircraft Instrumentation and Cockpit Rearrangement, Joseph N. Pecoraro	*May*	86
Wing Design for Practical High-Speed Aircraft, Donald W. Finlay	*Dec.*	44
DOUGLAS, DONALD W. Our Shrinking Globe (*Editorial*)	*Aug.*	30
DOUGLAS, L. L. Development Problems of the Large Helicopter	*Apr.*	60
DRYDEN, HUGH L. Aeronautical Research and the Art of Airplane Design (*Editorial*)	*Dec.*	40

	Month	Page
Editorial—		
An Added Service	*Sept.*	40
Aeronautical Research and the Art of Airplane Design, Hugh L. Dryden	*Dec.*	40
AGARD—An important NATO organization comes of age	*July*	24
Changeover	*Jan.*	24
Customer Appraisal	*Nov.*	40
Excerpts from the Seventeenth Wright Brothers Lecture, Glenn L. Martin	*Feb.*	22
Honors Night Dinner Address, Charles A. Lindbergh	*Mar.*	48
Northern Neighbor	*June*	40
Our Chief Stock-in-Trade	*Apr.*	38
Our Shrinking Globe, Donald W. Douglas	*Aug.*	30
The Systems Concept	*May*	54
Up and Down and Round and Round, Leonard S. Hobbs	*Oct.*	38
EDWARDS, JAMES B. Economic Considerations of the Transport Helicopter	*Apr.*	76
Electronics & Electrical Equipment—		
The Basis for Compromise Between Theoretical Performance and Operational Reliability, William D. McGuigan	*Dec.*	65
Cooling Supersonic Electronic Equipment, Doyle C. Wells	*May*	70
Integrated Electric Control for the General Electric J47-17 Jet Engine, L. D. Brown	*May*	59
Liquid Cold-Plate Method for Cooling of Air-Borne Electronic Equipment, Marshall P. Sandelin	*May*	82
Magamps Applied to Aircraft Control Problems, F. A. Baker and F. G. Timmel	*Nov.*	46
Operational Telemetering—An Aid to Air Navigation, M. V. Kiebert, Jr.	*May*	94
Practical Expectations and Limitations of the Reliability Problem, Russell H. Lindsay	*Oct.*	65
Some Recent Developments in Aviation Electronics, Welman A. Shrader	*May*	56
Thermal Considerations in Electrical Accessory Design, E. W. Cornwall	*Dec.*	59
ELLIOTT, DONALD R. The Self-Contained Airplane	*Sept.*	83
FINLAY, DONALD W. Wing Design for Practical High-Speed Aircraft	*Dec.*	44
Flight Propulsion—		
The Best Use of the Energy from a Turbine Engine for Aircraft Propulsion, L. G. Dawson	*June*	48
Compressor Bleed in Turbine-Powered Aircraft, B. L. Messinger and W. W. Merrill, Jr.	*Sept.*	50
Effect of Aircraft Jet-Engine Exhaust Impinging on Airfield Surfaces, N. L. Fox and S. J. Harvey	*July*	26
Integrated Electric Control for the General Electric J47-17 Jet Engine, L. D. Brown	*May*	59
Method for Measuring Thrust in Flight on Afterburner-Equipped Airplanes, L. Stewart Rolls and C. Dewey Havill	*Jan.*	45
Optimization of Power-Plant and Airplane Performance—A Symposium	*June*	42
Optimization Studies on Propulsion Systems for High-Speed Aircraft, Abe Silverstein	*June*	53
Propulsion Requirements for Navy Jet Fighters, Robert L. Hall	*June*	42
Turboprop Engines for Tomorrow's Transport, E. F. Heaton, C. S. Constantino, and W. H. Ziegler	*Mar.*	62
Flight Simulators—		
The Role to Be Played by Training Devices in the Training of Aviation Personnel, Edmund O. Carmody	*May*	74
Use of Flight Simulators in the Design of Aircraft Control Systems, H. Elmore Blanton	*Feb.*	29
The Use of an Operational Flight Trainer as a Research Tool for Aircraft Instrumentation and Cockpit Rearrangement, Joseph N. Pecoraro	*May*	86
Flight Testing—		
The Application of Flight-Test Techniques to Air-Load Distribution and Structural Research, Verlyn G. Marth	*Sept.*	76
The Flight-Test Organization, F. E. Christofferson	*June*	62
A Method of Locating the Airplane Take-Off Point and Determining the Take-Off Speed, Jerome M. Schwarzbach, John P. Boston, and Joseph E. Jenkins	*July*	42
FOX, N. L., AND S. J. HARVEY. Effect of Aircraft Jet-Engine Exhaust Impinging on Airfield Surfaces	*July*	26
FULLER, R. G. Report of Technical Sessions—1954 National Summer Meeting	*Oct.*	42
GRANHOLM, JACKSON W. The Use of Closed-Curve Equations of Variable Degree in Airplane Fuselage Lofting	*July*	52
HABER, HEINZ. Man and Machine Between Atmosphere and Space	*Nov.*	56
HALE, FRANK C. Human Factors in Jet-Transport Design	*Oct.*	84
HALL, ROBERT L. Propulsion Requirements for Navy Jet Fighters	*June*	42
HARVEY, S. J., AND N. L. FOX. Effect of Aircraft Jet-Engine Exhaust Impinging on Airfield Surfaces	*July*	26
HAVILL, C. DEWEY, AND L. STEWART ROLLS. Method for Measuring Thrust in Flight on Afterburner-Equipped Airplanes	*Jan.*	45
HEATON, E. F., C. S. CONSTANTINO, AND W. H. ZIEGLER. Turboprop Engines for Tomorrow's Transport	*Mar.*	62
HEINEMANN, E. H. Practical Considerations in the Optimization of Airplane and Engine Performance	*June*	44
HITCHCOCK, L. M. Development of Optimum Structure for Large Aircraft	*Nov.*	50
HOBBS, LEONARD S. Up and Down and Round and Round (*Editorial*)	*Oct.*	38
Institute of the Aeronautical Sciences—		
1954 AEDC Industry and Educational Advisory Board	*Mar.*	40
AGARD's Third General Assembly and Aeronautical Seminar	*Jan.*	23
AHS Milestone	*Jan.*	64
Air Flight Structures Study Center Established at Columbia University	*Jan.*	63
Air Safety Achievement Awards Presented	*Feb.*	61
American Non-Gran Becomes IAS Corporate Member	*Nov.*	38
AMS National Meeting	*Nov.*	38
Annual Business Meeting of the Institute	*Mar.*	35
ASME-SAE-IAS Fiftieth Anniversary Luncheon	*Feb.*	20

	Month	Page
Institute of the Aeronautical Sciences, *Continued*—		
ASTIA Testing New Indexing System	*Jan.*	63
Automatic Control Courses Announced	*May*	103
Aviation Crash Injury Research Joins Cornell-Guggenheim Aviation Safety Center	*May*	103
1953 Aviation Safety Award Winners	*Sept.*	39
Bane and Chanute Awards Presented	*Aug.*	25
A Brief Summary of the National Turbine-Powered Air Transportation Meeting	*Nov.*	36
CAI-IAS International Conference	*Dec.*	36
Consulting Firm of R. Dixon Speas Becomes Corporate Member	*May*	52
Director's Report—1953	*Mar.*	38
Douglas Engineers Honored	*Jan.*	63
Eight Aeronautical Companies "Excellently Managed"	*Apr.*	36
Fairchild Announces Jet Transport Plans	*Jan.*	23
Fellowships in the Institute	*Mar.*	43
Fifth Southeastern Student Branch Conference	*Aug.*	28
Four IAS Members Among ION Executive	*Oct.*	36
Fourth International Aeronautical Conference	*Jan.*	19
Grant for New Guggenheim Fellowships Announced	*Feb.*	21
Guggenheim Fellowships Awarded at CalTech.	*July*	21
Guggenheim Fellowships at Princeton	*Sept.*	39
1954 Guggenheim Medalist	*Nov.*	38
Honorary Fellows for 1953	*Mar.*	43
IAFS Technical Director Named; IAS Members Assisting	*July*	23
IAS Awards and Honors for 1953	*Mar.*	44
IAS Flight-Test Engineering Fellowship Announced	*Aug.*	26
IAS Members Elected SSA Officers	*Dec.*	38
IAS Members Head National Aeronautical Honorary Society	*Apr.*	36
IAS Members Serve with NACA	*May*	52
IAS Officers for 1954	*Mar.*	42
IAS Twenty-Third Annual Meeting	*Dec.*	35
IAS Welcomes New Corporate Member	*July*	23
Institute of Air Flight Structures' Advisory Council Formed	*June*	37
International Geophysical Year Program; IAS Members Named to U.S. Committee	*June*	38
Israeli Aeronautical Engineers Form Society	*Oct.*	36
Jerome C. Hunsaker Professorship	*Sept.*	39
Longren Aircraft Joins IAS	*Mar.*	39
Minta Martin Aeronautical Student Fund	*Aug.*	26
Musick Memorial Trophy Awarded to Sir Melvill Jones	*July*	22
Newly Elected Members of the Institute Council	*Mar.*	46
Nine IAS Corporate Members Back Procurement Course at Fordham University	*June*	37
Ninth Annual Flight Propulsion Meeting	*June*	35
Norwich University Names Aviation Advisory Board	*June*	38
Notes on IAS Luncheon Speeches	*Apr.*	35
Penn State to Present Short Courses	*Apr.*	36
Preliminary Announcement of 1954 Annual Summer Meeting	*May*	51
President's Report—1953	*Mar.*	35
Reaction Motors Joins IAS	*Apr.*	36
Ryan Becomes IAS Corporate Member	*June*	37
SAE Wright Brothers Award	*June*	38
1953 Safety Contest Winners	*June*	38
St. Louis Section's First Annual Student Paper Competition	*Aug.*	27
Second Annual Northeastern IAS Student Branch Convention	*July*	22
Second Southwestern Student Competition	*July*	20
Seventeenth Wright Brothers Lecture	*Feb.*	19
S.L.A. Translations' List	*July*	23
S.L.A. Translation Supplement Available	*Nov.*	38
Summer Meeting Report	*Sept.*	35
Swedish Engineer to Present Eighteenth Wright Brothers Lecture	*Nov.*	35
Tentative Program for CAI-IAS Meeting	*Oct.*	35
Tentative Program for National Telemetering Conference	*May*	53
Translations Pool Established	*Jan.*	63
Treasurer's Report—1953	*Mar.*	36
Turbine-Powered Air Transportation Meeting	*July*	19
Turboprop Test Program Announced	*Mar.*	40
United Aircraft Executive Wins Collier Trophy	*Feb.*	21
U.S. Rubber Joins IAS	*May*	52
West Coast IAS Student Branch Conference and Industry-Faculty Conference	*Sept.*	38
Instruments—		
The Operational Application of Automatic Pilots, Fred S. Bonney	*July*	47
Operational Telemetering—An Aid to Air Navigation, M. V. Kiebert, Jr.	*May*	94
IRVINE, CLARENCE S. The Air Weapon Systems in Operation	*Nov.*	42
JENKINS, JOSEPH E., JEROME M. SCHWARZBACH, AND JOHN P. BOSTON. A Method of Locating the Airplane Take-Off Point and Determining the Take-Off Speed	*July*	42
KIEBERT, M. V., JR. Operational Telemetering—An Aid to Air Navigation	*May*	94
KRESS, RALPH. An Air-Powered Servo-Actuator	*Jan.*	52
LACHMANN, G. V. Laminarization Through Boundary-Layer Control	*Aug.*	37
LINDBERGH, CHARLES A. Honors Night Dinner Address (*Editorial*)	*Mar.*	48
LINDSAY, RUSSELL H. Practical Expectations and Limitations of the Reliability Problem	*Oct.*	65
LÖFKVIST, HANS-ERIC. Aeronautical Research and Development in Sweden	*Dec.*	68
MAIER, LUCILLE F. Problems Encountered in Calculating Reliability	*Dec.*	52
MAIERSPERGER, WALTER P. General Design Aspects of Flight Refueling	*Mar.*	52
MANGURIAN, GEORGE N. Is the Present Aircraft Structural Factor of Safety Realistic?	*Sept.*	63
MARTH, VERLYN G. The Application of Flight-Test Techniques to Air-Load Distribution and Structural Research	*Sept.*	76
MARTIN, GLENN L. Excerpts from the Seventeenth Wright Brothers Lecture (*Editorial*)	*Feb.*	22
MCGUIGAN, WILLIAM D. The Basis for Compromise Between Theoretical Performance and Operational Reliability	*Dec.*	65
Meeting Reports—		
The Growing Interest in Space Travel (A Report on the Fifth International Astronautical Congress, Innsbruck, Austria, August 1–7, 1954)	*Nov.*	67
A Report on the Fourth General Assembly of AGARD	*Sept.*	42

	Month	Page
Meeting Reports, *Continued*—		
Report of Technical Sessions—1954 National Summer Meeting, R. G. Fuller	*Oct.*	42
22nd Annual Meeting—Summary of Technical Sessions	*Apr.*	40
MENDELSON, MYRON J. The Decimal Digital Differential Analyzer	*Feb.*	42
MERRILL, W. W., JR., AND B. L. MESSINGER. Compressor Bleed in Turbine-Powered Aircraft	*Sept.*	50
MESSINGER, B. L., AND W. W. MERRILL, JR. Compressor Bleed in Turbine-Powered Aircraft	*Sept.*	50
MEYER, JOHN H. Test Development of Structures Designed Understrength	*Oct.*	54
Military Aviation—		
Aeronautical Research and Development in Sweden, Hans-Eric Löfkvist	*Dec.*	68
The Air Weapon Systems in Operation, Clarence S. Irvine	*Nov.*	42
Application of Operations-Research Techniques to Air-Borne Weapon System Planning, Robert A. Bailey	*Oct.*	72
Propulsion Requirements for Navy Jet Fighters, Robert L. Hall	*June*	42
Necrology—		
James W. Adams	*Mar.*	40
Robert O. Bitner	*May*	103
Noel W. Bouley	*Apr.*	37
Gerald R. Brady	*Aug.*	29
Thomas P. Buckley	*Nov.*	39
Henry H. Budds	*May*	103
Dr. Karl T. Compton	*Sept.*	89
Daniel W. Drake	*Feb.*	61
Ralph N. DuBois	*Nov.*	39
Major Gen. Oliver P. Echols	*Aug.*	29
Volney C. Finch	*Apr.*	37
Henry P. Folland	*Nov.*	39
Eugene Gerhardt	*Dec.*	38
Benarthur C. Haynes	*Aug.*	29
Robert J. Minshall	*Nov.*	39
Richard L. Morgan	*Apr.*	37
John C. Newton	*May*	103
Herbert Olden	*July*	23
C. J. Stewart	*Sept.*	89
John R. Stiles	*Jan.*	64
H. V. Wright	*June*	38
Dr. A. F. Zahm	*Oct.*	36
PALL, DAVID B. Porous Metals in Aircraft	*July*	36
PECORARO, JOSEPH N. The Use of an Operational Flight Trainer as a Research Tool for Aircraft Instrumentation and Cockpit Rearrangement	*May*	86
PENNELL, MAYNARD L. Evolution of the Boeing Jet Tanker-Transport Design	*Aug.*	32
Personnel Training—		
Personnel Training Required to Produce Large Quantities of High-Performance Aircraft, Leverett P. Wenk	*Apr.*	53
The Role to Be Played by Training Devices in the Training of Aviation Personnel, Edmund O. Carmody	*May*	74
PIERCE, E. F. Optimization of Airplane and Engine Performance	*June*	52
POSTLE, DAVID E. Design of the Transport Helicopter	*Mar.*	70
Production—		
Personnel Training Required to Produce Large Quantities of High-Performance Aircraft, Leverett P. Wenk	*Apr.*	53
The Use of Closed-Curve Equations of Variable Degree in Airplane Fuselage Lofting, Jackson W. Granholm	*July*	52
RASPET, AUGUST. Application of Sailplane Performance Analysis to Airplanes	*Aug.*	56
RASPET, AUGUST, AND GLENN D. BRYANT. Flight Measurements of Trailing-Edge Suction on a Sailplane	*Jan.*	26
Research—		
Aeronautical Research and Development in Sweden, Hans-Eric Löfkvist	*Dec.*	68
Calibrating the PBY-6A Airplane for Meteorological Purposes, Given Brewer	*Feb.*	24
The Decimal Digital Differential Analyzer, Myron J. Mendelson	*Feb.*	42
ROBERTS, HOWARD E. Design Features of the XH-26 "Jet-Jeep" Helicopter	*Jan.*	37
ROLLS, L. STEWART, AND C. DEWEY HAVILL. Method for Measuring Thrust in Flight on Afterburner-Equipped Airplanes	*Jan.*	45
ROSCOE, S. N. Designing the Cockpit for High-Speed Flight	*Dec.*	47
Rotating Wing Aircraft—		
Design Features of the XH-26 "Jet-Jeep" Helicopter, Howard E. Roberts	*Jan.*	37
Design of the Transport Helicopter, David E. Postle	*Mar.*	70
Development of New Cargo Helicopters, Donald M. Thompson	*Aug.*	63
Development Problems of the Large Helicopter, L. L. Douglas	*Apr.*	60
Economic Considerations of the Transport Helicopter, James B. Edwards	*Apr.*	76
Operational Economics of Scheduled Helicopter Transportation, Robert L. Cummings, Jr.	*June*	66
RUMMEL, R. W. Airplane Design in Relation to Safety	*Apr.*	70
Safety—		
Airplane Design in Relation to Safety, R. W. Rummel	*Apr.*	70
Is the Present Aircraft Structural Factor of Safety Realistic?, George N. Mangurian	*Sept.*	63
Management's Economic Interest in Safety, Carl M. Christenson	*Aug.*	52
SANDELIN, MARSHALL P. Liquid Cold-Plate Method for Cooling of Air-Borne Electronic Equipment	*May*	82
SCHWALENBERG, H. V. Fabrication Aspects of Large Structural Components	*Nov.*	63
SCHWARZBACH, JEROME M., JOHN P. BOSTON, AND JOSEPH E. JENKINS. A Method of Locating the Airplane Take-Off Point and Determining the Take-Off Speed	*July*	42
SHRADER, WELMAN A. Some Recent Developments in Aviation Electronics	*May*	56
SILVERSTEIN, ABE. Optimization Studies on Propulsion Systems for High-Speed Aircraft	*June*	53
Structures—		
The Application of Flight-Test Techniques to Air-Load Distribution and Structural Research, Verlyn G. Marth	*Sept.*	76

	Month	Page
Structures, *Continued*—		
Development of Optimum Structure for Large Aircraft, L. M. Hitchcock	*Nov.*	50
Fabrication Aspects of Large Structural Components, H. V. Schwalenberg	*Nov.*	63
Is the Present Aircraft Structural Factor of Safety Realistic?, George N. Mangurian	*Sept.*	63
Practical Expectations and Limitations of the Reliability Problem, Russell H. Lindsay	*Oct.*	65
Problems Encountered in Calculating Reliability, Lucille F. Maier	*Dec.*	52
Test Development of Structures Designed Understrength, John H. Meyer	*Oct.*	54
THOMPSON, DONALD M. Development of New Cargo Helicopters	*Aug.*	63
TIMMEL, F. G., AND F. A. BAKER. Magamps Applied to Aircraft Control Problems	*Nov.*	46
VAN DEN BOUWHUYSEN, J. N. A. Starting Loads in Supersonic Wind Tunnels	*Jan.*	50
WALKER, W. J. The World's Largest Wind Tunnel	*Mar.*	80
WELLS, DOYLE C. Cooling Supersonic Electronic Equipment	*May*	70
WENK, LEVERETT P. Personnel Training Required to Produce Large Quantities of High-Performance Aircraft	*Apr.*	53
WILLIAMS, ROBERT MAURICE. Design of an Airfoil Oscillator	*Oct.*	80
Wind Tunnels—		
Design of an Airfoil Oscillator, Robert Maurice Williams	*Oct.*	80
Starting Loads in Supersonic Wind Tunnels, J. N. A. van den Bouwhuysen	*Jan.*	50
The World's Largest Wind Tunnel, W. J. Walker	*Mar.*	80
WOODS, R. J. Suggested Supersonic Design Considerations	*June*	46
ZIEGLER, W. H., E. F. HEATON, AND C. S. CONSTANTINO. Turboprop Engines for Tomorrow's Transport	*Mar.*	62

Special IAS Publications

	Member Rate	Nonmember Rate
Aeronautical Engineering Index – 1953	$ 3.00	$ 5.00*
1952	2.50	4.00*
1951, 1950, 1949, 1948, 1947 (each)	2.00	3.00*
Proceedings of the Turbine-Powered Air Transportation Meeting	3.50	6.00*
Second International Aeronautical Conference Proceedings	15.00	17.50*
First Convertible Aircraft Congress Proceedings	3.00	5.00*
Second Convertible Aircraft Congress Proceedings	3.00	5.00*
Seventeenth Wright Brothers Lecture—The First Half-Century of Flight in America, Glenn L. Martin (Reprinted from the February, 1954, JOURNAL OF THE AERONAUTICAL SCIENCES)	0.50	1.00
Sixteenth Wright Brothers Lecture—Technical Trends in Air Transport, William Littlewood (Reprinted from the April, 1953, JOURNAL OF THE AERONAUTICAL SCIENCES)	1.00	1.50
The Earth's Atmosphere, H. E. Roberts, including 20- by 16-in. colored chart (Reprinted from the October, 1949, AERONAUTICAL ENGINEERING REVIEW)	0.65	1.00
Index to Books on Selected Technical Subjects in the IAS Library (up to 1950), unbound	2.00	2.00*
"Fifty Years of Flight"—A Chronicle of the Aviation Industry in America, 1903–1953, Welman A. Shrader (Published by Eaton Manufacturing Company. Reprinting and Distribution Rights Granted to IAS)	4.50	5.00

*Add $1.00 for orders outside the U.S.A.
